CLEAN SHOTS

Gun Lubricating Wipes

Form: Pre-moistened Towel

Color: White Cloth w/ Clear Liquid

Odor: None

pH: N/D

Solubility (in water): Insoluble
(in mineral spirits): Soluble

VOC Content (% by weight): 80.0 – 90.0

Flash Point (°F): > 200

Specific Gravity: N/A

Density: N/A

Storage Stability (at 70°F): 1 year

This Product Contains:	**CAS #**
Isoparaffinic Hydrocarbon	64742-47-8

Great For Use On...

- **Handguns**
- **Rifles**
- **Shotguns**
- **Magazines**
- **Stocks**
- **Grips**
- **Actions**

Directions for Dispensing: Remove lid by lifting upward. Pull towel from center of the roll and thread through "X" from the underside of the lid. Close lid. Pull towel at 90° angle. Snap hinged cap back into place to ensure towels stay moist.

Directions for Use: MAKE SURE FIREARM IS FULLY UNLOADED BEFORE USE. Apply a thin lubricating film on firearms to repel non-visible moisture and prevent rust. Used regularly, these wipes can prevent the build up of carbon in weapons thereby helping the firearm to function properly and extending firearm life. Wipes can be twisted and inserted in one end of the barrel and pulled through the other end to clean and lubricate the inside of firearms. For smaller weapons, simply cut wipes into the appropriate strip size to ease entry through the bore.
