Use Anywhere Insects Hide.

DIRECTIONS: Indoor Use: Spray from 8 to 12 inches directly on ants, roaches, palmettos, fleas, silverfish, and other insect pests. Saturate the area until visibly wet. Use stream setting on roaches, and for penetrating cracks and crevices. Spray in kitchens, pantries, and under cabinets and appliances - anywhere insects hide. Wait three minutes, and then wipe excess with damp sponge or cloth. Apply to pet bedding to control fleas. Keeps repelling for weeks.

Outdoor Use: Spray perimeter of home generously to make a barrier of protection. Spray doorways, window frames, cracks - anywhere an insect can enter. Saturate until visibly wet. Saturate areas of trails or nests. Spray garbage cans, manure piles or any infested area until visibly wet.
