

## SHARE TECH PRO SERIES HAND TOOLS 12 PC SAE/METRIC NON-SLIP NUT SETTER AND EXTRACTOR COMBO KIT

Finally a driver that won't slip off in forward or reverse, installing or extracting when teamed up with the correct sizes.

- Heavy-duty chrome-moly tool steel construction provides ease of setting and extracting in all situations.
- The patented internal design allows for installing and extracting with the same driver/extractor.
- The 2 tools in 1 internal design allows for each driver to drive/install, remove/extract both SAE and its metric equivalent when applicable.
- No need for a separate SAE and Metric set.
- Some extractions of stripped fasteners may need to be tapped onto and over the heads of fasteners, studs, fittings, etc. to get started.
- Easily extracts rusted, corroded and rounded off hex head bolts, hex machine screws, hex tapping/drill screws, socket head cap screws, studs, hex nuts, threaded rod, pipe nipples, hex lag screws, square head fasteners, exposed set screws and some pan head, round head, fillister head and tamper proof screws when properly tapped on to and over the head on particular sizes.
- Can be used with 18-volt drill/drivers, 18-volt impact drivers, electric drills/drivers, air pneumatic drivers and any manual 1/4" drivers and adapters.
- Delivers 30 percent more torque than DIN STANDARDS.

STT6003001	12 PC. SAE/METRIC NON-SLIP NUT SETTER AND EXTRACTOR COMBO KIT
STT6003002	NON-SLIP NUT SETTER EXTRACTOR 1/4 DR 3/16" (5MM) SIZE 2-9/16"
