Pathos II Disinfectant Wipes

Kills 99.9% of Bacteria in Just 15 Seconds

- Eliminates Bacteria in Just 4 Minutes
- Fast Drying: Leaves No Dull or Sticky Residue
- Kills Pandemic 2009 H1N1 Influenza A Virus (formerly called swine flu)

Active Ingredients:
- Didecyl dimethyl ammonium chloride
- Hexadecyltrimethyl ammonium chloride
- 10% (w/w) detergent

Other Ingredients:
- Didecyl dimethyl ammonium chloride

Warning: Use only as directed. Do not use on unpainted wood.

This product is effective against the following organisms:
- Escherichia coli – (Extended spectrum beta-lactamase producing E. coli), Klebsiella pneumoniae, Legionella pneumophilia, Listeria monocytogenes, Staphylococcus aureus, Streptococcus pyogenes, Serratia marcescens (Serratia), Shigella dysenteriae, Vibrio cholerae.
- Pseudomonas aeruginosa (Pseudomonas), Salmonella enterica, Staphylococcus aureus - Methicillin-Resistant (MRSA), Staphylococcus aureus - Methicillin-Resistant (MRSA), Staphylococcus aureus - Methicillin-Resistant (MRSA), and Campylobacter jejuni (ATCC 29428).
- Corynebacterium ammoniagenes, Campylobacter jejuni (Campylobacter), Escherichia coli (E. coli), Eikenella corrodens, Enterococcus faecalis (Enterococcus), Enterococcus faecalis – Vancomycin Resistant (VRE), Escherichia coli – (Extended spectrum beta-lactamase producing E. coli), Klebsiella pneumoniae (Klebsiella), Legionella pneumophilia, Listeria monocytogenes, Pseudomonas aeruginosa (Pseudomonas), Salmonella enterica, Serratia marcescens (Serratia), Staphylococcus aureus (Staph), Staphylococcus aureus (Staph), Staphylococcus aureus (Staph), and Campylobacter jejuni (ATCC 29428).
- Burkholderia cepacia, Salmonella schottmuelleri (Salmonella), Salmonella typhi (Salmonella), Shigella flexneri (Shigella), Shigella dysenteriae (Shigella), Staphylococcus aureus - Methicillin-Resistant (MRSA), Staphylococcus aureus - Methicillin-Resistant (MRSA), and Campylobacter jejuni (ATCC 29428).
- Bacteroides fragilis, Bacteroides thetaiotaomicron, Campylobacter jejuni (Campylobacter), Escherichia coli (E. coli), Eikenella corrodens, Enterococcus faecalis (Enterococcus), Enterococcus faecalis – Vancomycin Resistant (VRE), Escherichia coli – (Extended spectrum beta-lactamase producing E. coli), Klebsiella pneumoniae (Klebsiella), Legionella pneumophilia, Listeria monocytogenes, Pseudomonas aeruginosa (Pseudomonas), Salmonella enterica, Serratia marcescens (Serratia), Staphylococcus aureus (Staph), Staphylococcus aureus (Staph), Staphylococcus aureus (Staph), and Campylobacter jejuni (ATCC 29428).

DIRECTIONS FOR USE:
- Do not use on a dirty or uncleaned surface.
- Do not flush in toilet.
- For plastic and painted surfaces, spot test on an inconspicuous area before use. This product will not harm most surfaces: including acrylic, sealed fiberglass and vinyl. Do not use on unsealed wood.
- To clean and disinfect: • Mold and Mildew: Wipe hard, non-porous surface with soap and water, then allow surface to dry. • If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. • First Aid: If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes.

FIRST AID:
- If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
- If swallowed: Do not induce vomiting. Call a poison control center or doctor for treatment advice.

STORAGE AND DISPOSAL:
- Store in original container in areas inaccessible to children. Keep securely closed. Non-refillable container: Do not use or refill this container.

Directions: For use on hard, non-porous surfaces. Do not apply to treated by immersion or excess liquid against Avian Influenza, Sanitizing, Deodorizing: To attain deodorizing hard non-porous, non-food contact surfaces, wipe out, using enough wipes to allow treated surface to remain wet for 5 seconds for Staphylococcus aureus (atypical 35393), Klebsiella pneumoniae (ATCC 45201), and Campylobacter jejuni (ATCC 35481). Let surface dry. For highly soiled surfaces, clean excess dirt first.

CLEANING AND DECONTAMINATION AGAINST HIV-1 OR HBV OR HCV ON SURFACES / OBJECTS SOILED WITH BLOOD / BODY FLUIDS:
- Follow disinfection instructions. Repeat treatment every seven days, or more often if necessary.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OR HBV OR HCV ON SURFACES / OBJECTS SOILED WITH BLOOD / BODY FLUIDS:
- Use appropriate contact time as listed on the disinfectant label. For all other viruses and bacteria, use appropriate contact time as listed on the disinfectant label.

CONTACT TIME: 10 minutes.
