**KEEP OUT OF REACH OF CHILDREN**

See side panel for additional precautionary statements.

**NET CONTENTS**

100 Pre-measured Wipes: 10 x 10 x 1.25-inch x 17.875

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS**

**FIRST AID:**

- For ingestion, call Poison Control Center.
- For inhalation, move to fresh air and seek professional medical attention.
- For eye contact, flush eyes with large amounts of cool water for 15 minutes, then seek medical attention.
- For skin contact, wash skin with soap and water for 15 minutes, then seek medical attention.

**STORAGE AND DISPOSAL**

- Do not allow water to come in contact with eyes or clothing.
- Do not flush. Close lid between uses. Follow local regulations when disposing of the product.
- Keep out of reach of children.

**PRECAUTIONARY STATEMENTS**

**Hazard to Humans and Domestic Animals**

- Keep out of reach of children.
- Do not flush. Close lid between uses. Follow local regulations when disposing of the product.

**CAUTION:**

- Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco.

**FIRST AID:**

- For ingestion, call Poison Control Center.
- For inhalation, move to fresh air and seek professional medical attention.
- For eye contact, flush eyes with large amounts of cool water for 15 minutes, then seek medical attention.
- For skin contact, wash skin with soap and water for 15 minutes, then seek medical attention.

**INHALATION:**

- Remove the user from exposure and provide fresh air.
- Call a Poison Control Center or hospital emergency department.

**INGRESION:**

- Do not give anything by mouth. Call a Poison Control Center or hospital emergency department.

**ACUTE TOXICITY:**

- Do not give anything by mouth. Call a Poison Control Center or hospital emergency department.

**MICROBICIDE DISINFECTANT WIPES**

- Use only on external surfaces of ultrasound transducers and probes. When properly used, microwipe can automatically clean and disinfect the entire surface of the transducer and the transducer tip. The transducer tip should be thoroughly cleaned and disinfected before application of the product. MICROCIDE DISINFECTANT WIPES can be used for this purpose.

**CONTACT TIME:**

- Thoroughly wet surface with a microwipe. Allow surface to air dry.

**USE OF MICROCIDE DISINFECTANT WIPES**

- Place a microwipe on a clean dry, intact skin area. The microwipe will automatically clean and disinfect the entire surface of the transducer and the transducer tip. For ultrasound transducers and probes, with a clean washcloth, clean gel from external surface of the transducer and the transducer tip. The transducer tip should be thoroughly cleaned and disinfected before application of the product. MICROCIDE DISINFECTANT WIPES can be used for this purpose.

**STORAGE AND DISPOSAL**

- Do not allow water to come in contact with eyes or clothing.
- Do not flush. Close lid between uses. Follow local regulations when disposing of the product.
