High Adhesion Spray Lubricant

OPEN GEAR LUBE forms a tough, slim lubricating film for use on gears, sprockets, wire ropes, cables, chains, or industrial machinery and heavy construction equipment. It seals out moisture and repels water to prevent rust and corrosion. It protects gears under excessive loads and reduces noise. Its effective temperature range is 20°F to 175°F.

DANGER:
Extremely flammable aerosol contains gas under pressure; May explode if heated. Causes skin and eye irritation. May cause drowsiness or dizziness. May be fatal if inhaled.

PREVENTION:
Keep away from heat, sparks, open flames and excessive heat. Do not pierce, heat or incinerate can after use. Pressure from an unopened can may not be detected. Discard unopened container in accordance with local regulations. Do not expose to temperatures exceeding 122°F.

RESPONSE:
Avoid breathing fumes, mist, vapors and spray. Use only outdoors in well ventilated area. If on skin: wash with plenty of water. If skin irritation occurs: get medical advice or attention. Take off contaminated clothing and wash before reuse. If in eyes: rinse cautiously with water for several minutes. If eye irritation persists: get medical attention.

INGREDIENTS/CAS#:
Petroleum Resins (64742-16-1); Heptane (142-82-5); Propane/n-Butane (68476-86-8); Hydrotreated Petroleum Oils (64742-57-0).

NFPA® RATINGS:
Health: 1; Flammability: 3; Reactivity: 0

For industrial and commercial use only. For additional information, see Safety Data Sheet.

DIRECTIONS:
Shake Well Before Using. Remove cap and hold can approximately 6 to 8 inches from surface to be sprayed. Apply a continuous film of lubricant, turn on machinery and allow the lubricant to spread over all working surfaces. Apply a second thin coat to ensure adequate protection. After use, turn can upside down and spray for a few seconds to clear the nozzle. Sold by: 8012.021815
