WHOOSH offers excellent low friction, dry-film lubrication in an easy to use aerosol container. This fast drying lubricant adheres to many substrates including wood, metal, fabric, plastic and rubber. Typical applications include: window glides, tools, tumbler locks and assemblies, dry gear and chain lubricant, and hinges. WHOOSH also provides an excellent water and weather barrier.

**INGREDIENTS/CAS#:**
- Toluene (108-88-3)
- 2-propanol (67-63-0)
- Carbon dioxide, liquefied, under pressure (124-38-9)
- Polytetrafluoroethylene (9002-84-0)

**NFPA RATINGS:**
- Health: 2
- Flammability: 4
- Reactivity: 0

**DIRECTIONS:**
- Shake Well Before Using. Be sure surface is clean and dry before coating. To ensure even coating, spray about 8 to 10 inches away from the surface. Ricochet. Keep at least 8 inches away from the surface. For use as a mold or form release, be sure to completely cover all surfaces with the lubricant.

**NOTE:**
May harm painted, plastic or waxed surfaces. Always test in an inconspicuous area before use.

**WARNING:**
This product is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

**RESPONSE:**
- If Inhaled: Wash with plenty of water
- If Skin Irritation Occurs: Get medical advice/attention.

**STORAGE:**
- Keep out of reach of children
- See back panel for further cautions and first aid instructions.

**DISPOSAL:**
- Dispose of contents/container to comply with local/regional/national/international regulations.

**DANGER:**
- Extremely flammable aerosol. Contains gas under pressure; may explode if heated. Causes skin irritation. Causes eye irritation. May cause drowsiness or dizziness. May cause genetic defects. May cause cancer. May damage fertility or the unborn child. May cause damage to organs through prolonged or repeated exposure. Keep out of reach of children.
