SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures general: May be harmful if swallowed. Causes severe skin burns and eye damage.

First-aid measures after inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a poison center or doctor/physician.

First-aid measures after skin contact: Take off immediately all contaminated clothing and wash it before reuse. Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention.

First-aid measures after eye contact: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center or doctor/physician.

First-aid measures after ingestion: Rinse mouth. Do NOT induce vomiting. Get immediate medical advice/attention.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries after inhalation: May cause respiratory irritation.

Symptoms/injuries after skin contact: Caustic burns/corrosion of the skin.

Symptoms/injuries after eye contact: Causes serious eye damage. Corrosion of the eye tissue. Permanent eye damage.

Symptoms/injuries after ingestion: May be harmful if swallowed. Burns to the gastric/intestinal mucosa.

4.3. Indication of any immediate medical attention and special treatment needed

No additional information available

SECTION 5: Firefighting measures

5.1. Extinguishing media

5.2. Special hazards arising from the substance or mixture

Explosion hazard: Heat may cause pressure rise in tanks/drums: explosion risk. Bursting aerosol containers may be propelled from a fire at high speed.

Reactivity: Thermal decomposition may produce: Carbon dioxide. Carbon monoxide.

5.3. Advice for firefighters

Firefighting instructions: Evacuate area. No action shall be taken involving any personal risk or without suitable training. Move containers away from the fire area if this can be done without risk. Use water spray or fog for cooling exposed containers.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures: Gas is denser than air. May accumulate in low areas e.g. close to the ground. Vapors may travel long distances along ground before igniting/flashign back to vapor source.

6.1.1. For non-emergency personnel

Protective equipment: Do not enter without an appropriate protective equipment.

6.1.2. For emergency responders

No additional information available

6.2. Environmental precautions

Stop leak if safe to do so. Isolate hazard area. When leaks or spills occur, only properly protected personnel should remain in the area. Eliminate all ignition sources. Use ventilation/water spray/fog to disperse vapors. Prevent runoff from entering drains, sewers or waterways. Absorb and/or contain spill with inert material, then place in suitable container. Comply with local regulations for container disposal.

6.3. Methods and material for containment and cleaning up

No additional information available

6.4. Reference to other sections

No additional information available

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Additional hazards when processed: Keep away from heat, sparks and flame. Heating will cause a rise in pressure with a risk of bursting. Do not puncture, incinerate or crush. Store in dry, cool area.

Precautions for safe handling: Do not get in eyes, on skin, or on clothing. Intentional misuse by deliberately concentrating and inhaling may be harmful or fatal. Keep out of reach of children.
7.2. Conditions for safe storage, including any incompatibilities
No additional information available
