

Master Air Blaster Set

- A patented and ergonomical air gun designed with a labor saving *state-of-the-art* piston driven, anti-fatigue fitted handle and trigger
- Equipped with a molded hanging hook for simple storage
- Designed with a *patented air volume regulator* with minimum and maximum volume settings
- A handle clip ring allows for continuous air flow without constant depressing of the handle, reducing hand fatigue
- When the clip ring is in place and the Master Air Blaster is disconnected and not in use, its compact size takes up less space when stored in a tool box, drawer, on a shelf, etc
- A patented internal piston design inside the handle prevents air leakage
- A patented, adjustable sliding air nozzle with adjustment nut allows for controlled high volume air movement, and is equipped with an OSHA approved safety clip
- The air release tubes have OSHA approved sidewall air release vents at the end of each tube
- Approved for volume pressure up to 280psi (20kg/cm²)
- Piston and nozzle O-ring rebuild kits available

Code #	Description
TL41840250	5" Master Air Blaster w/back bent tube
TL41840251	5" Master Air Blaster w/back bent tube and Master Air Blaster Nozzle Kit
TL41840252	14" Master Air Blaster w/back bent tube
TL41840253	14" Master Air Blaster w/back bent tube and Master Air Blaster Nozzle Kit
TL41840254	21" Master Air Blaster w/back bent tube
TL41840255	21" Master Air Blaster w/back bent tube and Master Air Blaster Nozzle Kit
TL41840258	3pc Master Air Blaster Kit (5", 14", 21")
TL41840259	6pc Master Air Blaster Kit (5", 14", 21" and 3 Nozzle kits)
TL41840256	Master Air Blaster Nozzle Kit
TL41840260	Master Air Blaster O-ring Rebuild Kit
TL42000010	Replacement O-Rings for Nozzle Kit

* When operating, wear appropriate PPE (personal protection equipment)

* Do not aim at animals or people

* Master Air Blaster does not come with male plugs
