CODE: STT3001002
DESCRIPTION:
 8" E-Z Auto-Lock Curved Jaw Locking Plier Capacity 1-5/8"

CODE: STT3001003
DESCRIPTION:
 10" E-Z Auto-Lock Curved Jaw Locking Plier Capacity 1-7/8"

- Heavy duty chrome vanadium steel provides maximum durability, strength and increased gripping power.
- Heavy duty chrome vanadium jaw and serrated teeth provide an increased bite to hex head bolts, hex nuts, pipes and fitting, tubes, flat steel, sheet metal, cables and more.
- Heavy duty chrome vanadium jaws provide for maximum clamping pressures for welding, glueing and adhesive applications and nailing and fastening multiple surfaces together.
- Nickel plated with forged grips.
- The patented "locking mechanism system" allows the pliers to "self adjust" and lock automatically without jaw adjustment.
- The presure setting "knurling tension screw" easily sets desired clamping pressure from slight to extreme depending on needs and application.
- Patented "pull release lever" allows for a smooth and simple quick release without any twisting of the materials clamped or readjusting when needing to move onto or transfer to different thicknesses to be clamped.
- A much desired and needed tool for welders, machinists, electricians, carpenters, instrument and controls shops, general maintenance, automotive mechanics and for anyone who performs buildings, grounds, machinery and vehicular maintenance.
- 3 heavy duty sizes: 6", 8", 10".

LIMITED WARRANTY AGAINST FACTORY DEFECTS.
