

SHARE TECH PRO SERIES LED WORKLIGHT

THE INSPECTOR RECHARGEABLE LED HANDHELD WORKLIGHT

- Super bright 370 lumens (low) to 3000 lumens (turbo).
- IPX 4 moisture resistant rated against water sprayed in all directions w/the Type C charging port cover in place.
 - Shockproof, dust and water resistant w/Type C charge port cover in place.
 - Permanently attached pocket clip that will never pop off.
 - The magnetic tail cap allows for a hands free work and inspection application when around ferrous metals.
 - Attached safety wrist lanyard provides safety and drop prevention.
 - Anti-roll bezel prevents rolling on non-level surfaces.
 - Adjustable bezel allows crystal clear focusing.
 - Serrated bezel allows heat to dissipate when left on and placed face down on a flat surface and also recognizing that the light has been left on.
 - The battery level indicator is the on/off button (green indicates fully charged, red indicates reduced battery energy level).
 - When charging, the red light on the on/off button will appear, then turns green when fully charged.
 - Equipped with a 2200mah, 18650 rechargeable battery and charging cord.
 - On/off switch operation.
 - High/Low/Flash/Off.
 - Double press for turbo mode.
 - Long press for stepless High/Low illumination.
 - Rust proof anodized aluminum alloy body.
 - Lightweight, only 7.005 ounces with the battery.
