GALVANIZING SPRAY
Instant Aerosol Cold Galvanizing

Form: Aerosol
Color: Opaque, silver
Odor: Solvent
pH: N/A
Solubility (in water): Negligible
(in mineral spirits): Soluble
VOC Content (% by weight): 37.23
Flash Point: -141°F (Propellant)
Specific Gravity: 1.619 g/ml
Density: 13.51 lbs/gal

Ingredients
Acetone .................................................67-64-1
Zinc Powder ........................................7440-66-6
Propane/Isobutane/n-Butane ...........68476-86-8
Toluene ..................................................108-88-3
0-Aromatic Mineral Spirits ..............8052-41-3

For use by...
- Chemical Plants
- Refineries
- Shipyards
- Steel Mills
- Industrial Plants
- Power Generating Plants
- Construction Industries
- Metal Fabrication & Welding
- General Maintenance

For use on...
- Piping
- Ducts
- Oil Rigs
- Trailers
- Auto Bodies
- Farm Equipment
- Ornamental & Antique Metals
- Structural Steel & Wire Tanks

DIRECTIONS: For best results, apply to a clean, dry, grease-free surface. Remove all rust and loose paint; roughen existing gloss coatings. Mask off areas not to be sprayed, protect adjacent areas. Shake can very well and often, before and during use. Ball should rattle freely. Hold can 12-15 inches from surface; apply evenly. Two thin coats are recommended, allowing 10 minutes drying time between coats. For best results, apply between 60-80°F (16-27°C). Clean nozzle immediately after use – turn can upside down and spray until clear. For clogs, remove nozzle. Clean parts with wire, replace carefully. Point nozzle away. Dispose of can in accordance with applicable regulations. FOR INDUSTRIAL USE ONLY.
